- \* Developer **Happy to describe what I did during my internship! During my time as an intern, I was involved in various tasks depending on the nature of the internship. This could include conducting research, assisting with projects, attending meetings, collaborating with team members, and learning from experienced professionals in the field. I might have also been tasked with completing specific assignments or projects to gain hands-on experience and contribute to the organization's goals. Each internship is unique, so the specific tasks and responsibilities can vary widely based on the company and the role I was fulfilling.**
